### WHO RESPONSE

#### Top five countries with the highest number of confirmed COVID-19 cases; 5-Sep-20

### GLOBAL

New cases **296,032**

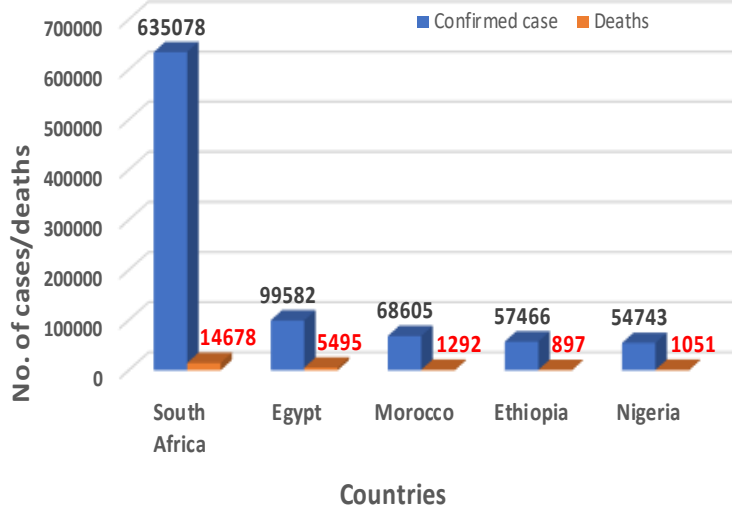

Confirmed Cases **26,468,031**

Deaths **871,166**

Source: WHO Dashboard 05-Sep 2020 @ 2:45pm CEST

### AFRICA

Fig. 1: Prevalence of confirmed COVID-19 cases in Africa, 05-Sep-2020

1,291,724

•TOTAL CONFIRMED CASES

1,031,453

•TOTAL RECOVERED

31,056

•TOTAL DEATHS

- Globally, the cases have increased to over **26 million** with a very sharp increase in case in South America especially Brazil, Peru and Columbia. There is a marked reduction in the number of cases in South Africa and this has led to improving its previous 5<sup>th</sup> position ranking to 7<sup>th</sup> on the globe.
- In Africa, the top 5 countries reported **915,474** confirmed cases and **23,413** deaths representing **70.8%** of the total reported confirmed cases and **75.4%** deaths respectively.
- The total recovered in the continent have just exceeded a million mark.
- Ethiopia currently occupies the **4<sup>th</sup>** position in the number of confirmed cases in African continent and the **2<sup>nd</sup>** position in the WHO Africa region just after South Africa.
- Nevertheless, there is a landmark achievement of over **ONE MILLION PCR LABORATORY TESTS** so far conducted in the country
