WHAT IS THE SITUATION IN ETHIOPIA

- ◆ No suspected case of COVID-19 in the isolation facility
- ◆ A total of 70 alerts reported, 18 samples collected and all tested negative
- ◆ Twenty nine clinicians from Ethiopian Medical Association members trained on COVID-19 with the overall target of 1500 clinicians to undergo training.
- ◆ Additional 24 PoE health screening staff for Bole International Airport (BIA) trained giving a total of 54 participants trained on COVID-19.
- ◆ Support supervisory visits to BIA to strengthen implementation of Public Health measures

Key upcoming activities

- ◆ Briefing of Humanitarian Donors in Ethiopia on COVID-19 by WHO
- ◆ Refresher training for alert/rumor management team
- ◆ Airline crew training started on 23-Feb and 3000 crew members are expected to be trained in batches over a two-week period

WHAT IS THE SITUATION GLOBALLY

- ◆ **78,811** total confirmed cases
- ◆ **1,017** new confirmed cases in the last 24 hours
- ◆ **8** out of **28** countries other than China reported new confirmed cases (**367**) in the last 24 hours

China

- ◆ **77,042** confirmed cases; **2,445** deaths
- ◆ **650** new confirmed cases in the last 24 hours

Outside of China

- ◆ **1,769** confirmed cases; **17** deaths

WHO Risk Assessment

Ethiopia : **High**; Regional level : **High**
China : **Very High**; Global level : **High**

Fig.1: Map of Countries reporting COVID-19 cases as of February, 23 2020

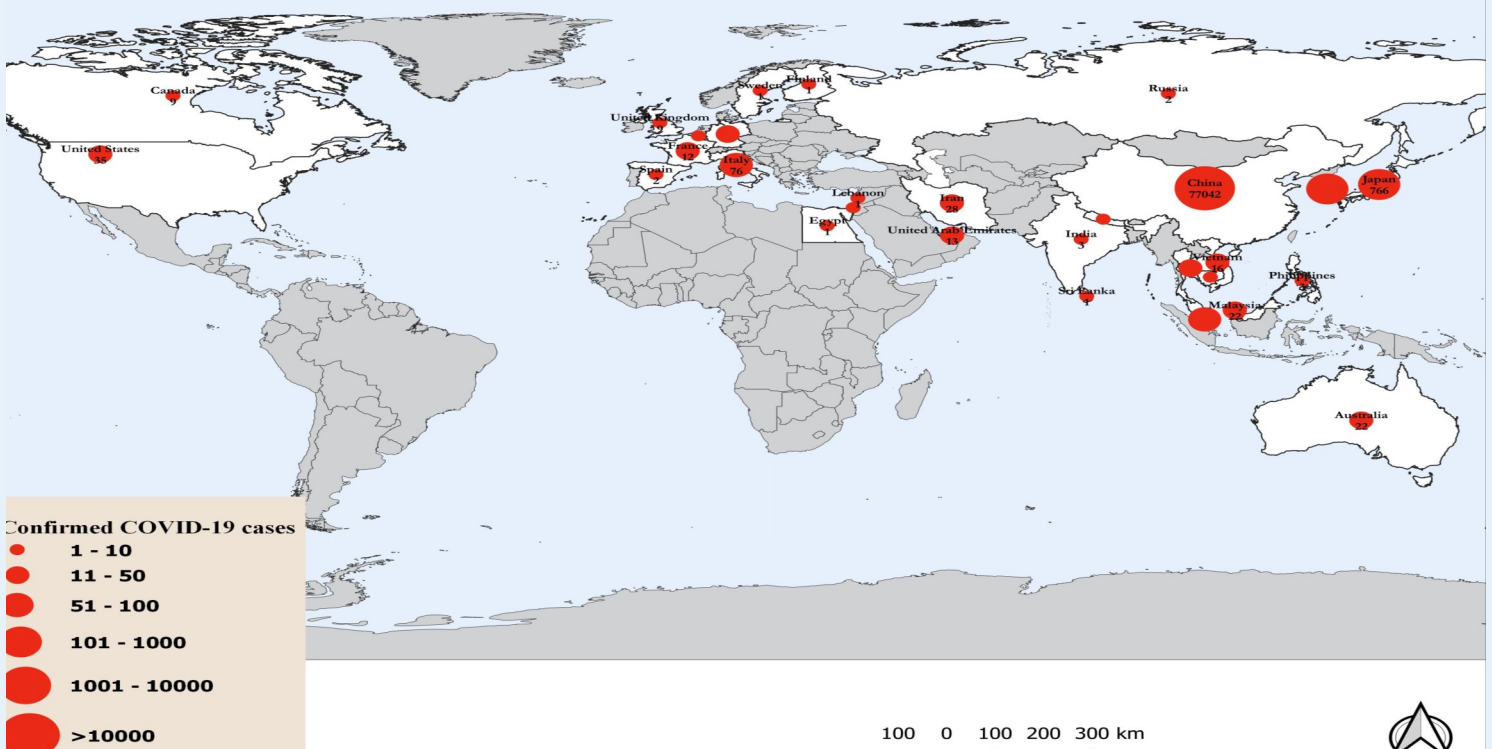

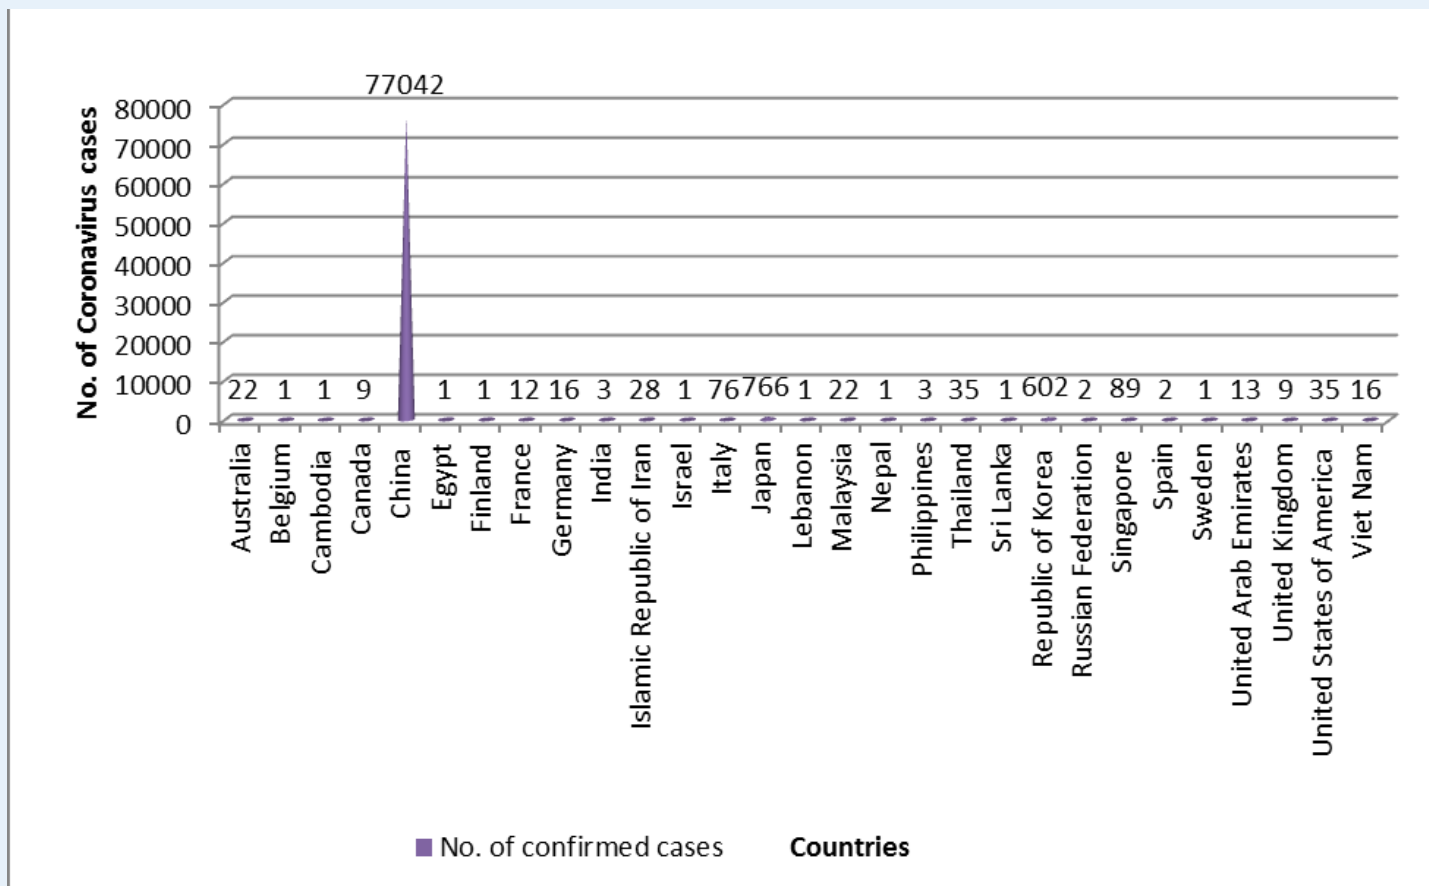

Fig. 2: Number of confirmed COVID-19 cases as of February 23, 2020

- ♦ As of February 23, 2020, a total of 78,811 confirmed cases were reported and 97.8% (77,042) of the confirmed cases are from China.
- ♦ The 766 confirmed cases in Japan include 634 cases on the International conveyance (Diamond Princess).

Note: The reported cases are as of February 23, 2020

Challenge

- ♦ Limited supply of Lab reagents for COVID-19 confirmatory test
- ♦ Insufficient PPEs (facemasks, alcohol hand sanitizers, etc to meet demands
- ♦ Insufficient displays and distribution of COVID-19 risk communication messages

Recommendations and advice

- ✦ Frequently clean hands by using alcohol-based hand rub or soap and water
- ✦ When coughing and sneezing cover mouth and nose with flexed elbow or tissue and wash hands;
- ✦ Avoid close contact with anyone who has fever and cough
- ✦ The consumption of raw or undercooked animal products should be avoided.
- ✦ If you have fever, cough and difficulty breathing seek medical care early and share previous travel history with your health care provider
- ✦ When visiting live markets in areas currently experiencing cases of novel coronavirus, avoid direct unprotected contact with live animals and surfaces in contact with animals;
- ✦ Cook your food and especially meat thoroughly.
- ✦ Call the UN clinic on telephone number **+251929908433** If you have been in China within the past 14 days and you feel unwell
